Art Unit: 3652

1. Applicant is advised that the Notice of Allowance mailed 7/29/03 is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Prosecution on the merits of this application is reopened on claims 1, 3, 8 and 9 considered unpatentable for the reasons indicated below:

Claims 1, 3, 8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Glass et al (US 3,759,399, of record).

Glass et al show a fork lift accessory comprising a lifter capable of lifting, removing and replacing a rail car lid, including a base configured as a pallet for fork truck handling, as seen in figure 1, frame 16 coupled to the base, and boom 18-19 having at its distal end a fitting 22, 27 which could engage a rail car lid handle, wherein the boom has generally parallel upper and lower

Art Unit: 3652

surfaces spaced at the distal end which could fit within an open sided space of a lid handle, and wherein the assembly of the boom, frame, and base could clearly stand freely upon the ground when not in use. Note that the rail car lid *per se* is not a positively recited limitation; thus, since the apparatus of Glass et al could be used, without structural modification, to manipulate a rail car lid in the manner set forth, it is considered to fully anticipate the claims.

4. Claims 4-5, 7, 10-11, and 13-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

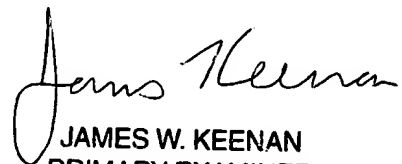

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Keenan whose telephone number is (703) 308-2559.
